

Top Excuses For NOT Creating An Emergency Medical Outline

And Why Paramedics EVERYWHERE Hope You'll Reconsider!

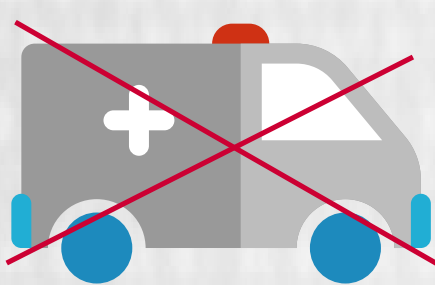

When Minutes Count, What Paramedics Don't Know CAN Hurt You!

My Doctors Knows My History

In most cases, your doctor WILL NOT be called to meet you in the emergency department.

Most hospitals today use special 'admitting' physicians for all admits out of the emergency department.

30 HOURS

Avg Per Month ERs CLOSE To Ambulances

The Hospital Has My Records

FACT

ER's close to ambulance traffic due to critical patients. If your ambulance is diverted, you'll be taken to a hospital that doesn't have your records!

They'll Call My Son or Daughter

Sure ...once you arrive at the ER, but what happens in the field, long before you reach the ER can determine your outcome!

Even the most savvy of spouses struggle to recall important information due to the stress of an emergency!

My Spouse Can Tell Them Everything

I Take My Medication Bottles To The ER With Me

Taking your medication bottles to the ER could prove costly, as they often get lost after you're admitted ...despite claims of a 'lock-up' protocol. How much \$ would it cost to replace all your medication?

Great, but getting an ambulance to your home quickly is only the beginning. Providing accurate, complete medical information quickly can save your life.

I have a Home Medical Alert System

Nº1 Reason

Nobody likes to think they'll have a 911 call.
